

SPEEA stands in Solidarity with Ukraine

SEATTLE – Members of SPEEA, IFPTE Local 2001, stand with our fellow aerospace professionals and all citizens of Ukraine to call on Russian leaders to end their senseless invasion of this sovereign nation.

Facing death and destruction of their country and way of life, the citizens of Ukraine are showing unmatched bravery to save their democracy and protect their freedom.

We support the continued use of sanctions to help stop this war. The small inconvenience these measures place on us is no comparison to the hardships and sacrifices borne by the people of Ukraine.

As a union formed and maintained by collective action, we stand in Solidarity with Ukraine President Volodymyr Zelenskyy, the Ukrainian people, and the people of the world to call on Russia to end this conflict.
