

September 10, 2020
NW20-021

To: NW Council Members
From: Mike Veturis (E-30)
Subject: **NEW BUSINESS: Arbitrate to Win Work Back**

Background

The background is being presented through the PowerPoint presentation – Boeing_Transfer_of_SPEEA_Work_to_Non-Bargaining_Units-Rev4.

MOTION

It is moved that: **The NW Council requests the Executive Board investigate and report back to the NW Council the offloading of skill codes 6H, 6G, and any others to Moscow Design center and North Charleston, South Carolina, while SPEEA members in the same skill codes have been laid-off. The stable workload at the Moscow Design center coupled with a decrease in Puget Sound SPEEA member workloads violates Section 9.1 of the Professional and Technical Unit contracts.**

.
