

**Presenter:** Mark Friesen

**Date:** September 9, 2021

**Topic:** The goal of this agenda item is to improve the safety and well-being of our members' work-place area (office area, factories, airfields, etc) by recommending non-essential work be completed remotely due to COVID-19.

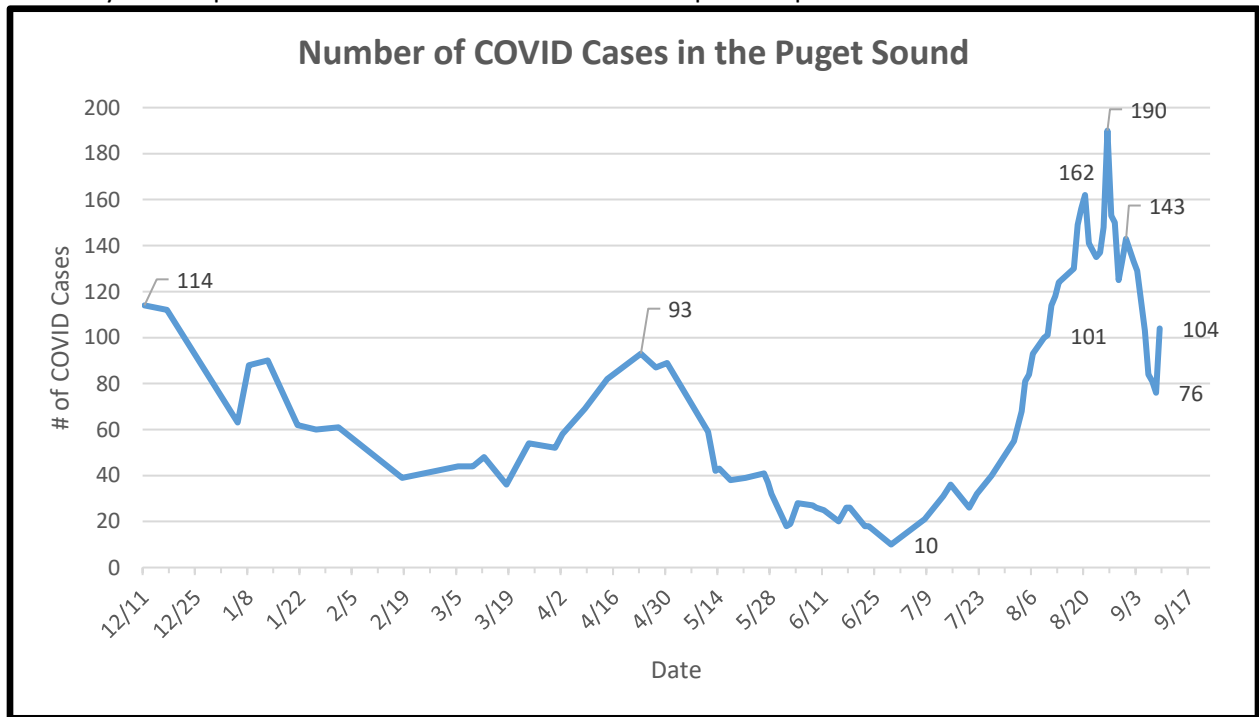

**Motion 1:**

It is moved that the SPEEA NW Council will send a letter to the Boeing Company recommending that we put safety first so that non-touch labor work be completed 100% virtually due to the Delta Variant of COVID-19.

Current cases are up over 500% in large production areas (Renton & Everett).

Please should be using their Boeing Issued equipment to be safe (versus getting sick at work).

Currently the hospitals are overwhelmed with sick COVID positive patients.
