

## District A-1 (Vote for ONE candidate)

---

### Mike Arrington

My name is Mike Arrington and I want to serve as your Council Representative. I have worked at Boeing as an Industrial Engineer since 2010 and was first elected as a Renton Council Rep in 2013. I moved to Frederickson in September 2014 and was A-40/F-10 Council rep until elected SPEEA NW Vice President in 2022. I am currently an IE supporting EM&TS.

I care deeply about my responsibilities as a representative and will work to address and resolve every concern of which I'm aware. SPEEA's priorities and focus are yours to determine, and you can take comfort in the fact that your voice will be heard if I'm elected.

Before Boeing I served 14 years in the USMC Reserves and have held non-union aerospace jobs in production and engineering since 1995. I have seen how valuable union representation is, and I am willing and ready to represent your interests.

---

### Benjamin Nielsen

I am asking for your vote to be your Council Representative and ensure the voices of A-1 members are heard. In recent years, I have been frustrated by a lack of communication to our district members. I will work with the A-1 District Area Reps to ensure that every team knows where to go for union news, our union boards are updated, and your voices are heard on the council. With upcoming contract negotiations, together, we can see our members succeed to build strong engineering teams, build SPEEA awareness in the A-1 District, and build a future for Boeing with engineering excellence at the core.

---

### Carl Mayer

With all the recent Boeing setbacks and an upcoming contract negotiation this is a critical time for SPEEA members. Like myself there are a lot of early career engineers, and we need to step up to ensure that SPEEA is functioning to its full potential. I want to do my part to make sure this happens.

In addition to the regular duties of the Council Rep my goals are to make sure everyone in the A-1 district is kept up to date on any contract negotiation news, encourage attendance at SPEEA events to show we are engaged, provide our district's contract needs to the negotiation team, and make sure everyone knows how to prepare for a potential strike.

I ask that you join me in these efforts by voting for Carl Mayer for district A-1 council representative.
