

District E-21 (Vote for ONE candidate)

Rod Siders

As a SPEEA Council Representative for 8 terms, I have always been passionate in assisting YOU, my fellow SPEEA employees, with your workplace and contract issues. I want to continue to represent YOUR voice at our Council meetings. I am new to District E-21, management redeploying me here to E-21 in January, but my passion to assist my fellow members of SPEEA always burns hot! If reelected, I promise to focus more attention to stronger member activism and SPEEA unity. This BEGINS with me, but it is not about me, it is about what is important to our members. I will take full ownership of my CR responsibility to lead with integrity, passion, and good judgment, while improving transparent communication and sharing. For example, I provide Council Meeting Summaries and Budget documents to my district members. I do not know how many other CRs take this effort. Thank you!

Raquel P. Cundiff

As an engineer in the aerospace industry and a human living in this world, I like to help others succeed. While I enjoy the technical side of my work and collaborating with my colleagues, my passion is helping employees maintain a positive mental health to enjoy life. I am involved in our SPEEA & NW Committees and Negotiations team, SPEEA / Boeing roundtable and hold the NW Secretary role. I want to empower our union members to stand strong and use their benefits to ensure they are not being taken advantage of. I will guide them on their career / work questions and help them reach resolution. I participate as a coach for Ed Wells Career Services, SPEEA Aerospace Career Enhancement (ACE) Program and Boeing's Enterprise Mentoring Council. I author articles on mentoring & mental health to begin discussions. I hope to continue being a Council Representative for District E-21.
