

District E-31 (Vote for TWO candidates)

Dr. Sergey Barmichev

Hello, I am Dr. Sergey Barmichev, your SPEEA Council E-31 Rep for past seating terms. With the impending election I would like to ask that you vote for me. I work in Product Development in 45-802. Over the past time, I was always trying to represent your beliefs and needs rather than mine when voting on SPEEA legislations. I promise to keep this attitude in the future. As my commitment to you, I will be available to represent and help you with issues at work. I am patient and willing to listen and help others. I believe that we should take care of one another particularly now. While I don't believe in confrontation for the sake of confrontation, I do believe that we must stand up for our rights. I have experience in successful community organizing and working with people and will bring it to our workplace for your benefit.

Andrew Alam

Fellow SPEEA members, I look forward to the opportunity to serve you all as a representative of our district. I believe that Council Reps should serve the interests of the members they are assigned to in the form of representation at SPEEA Council meetings, support through the appeal process, sharing information to keep us all informed and protected from improper management practices, and others that can help us become a more cohesive union. I have appreciated the steps our district has taken to become closer and more unified, and I look forward to doing more with to continue the trends of frequent, open communication and transparency with membership. The next two years will be important, and I will strive to serve you all well as the contract negotiations begin next year.

In Solidarity, Andrew Alam

Michael Berryhill

Fellow SPEEA members, for two years I've served you all as a representative of this district. Council Reps, or more appropriately Union Stewards, are meant to serve the interest of the members they are assigned to. This means listening to member issues, representing them through appeal processes, ensuring all members have information to protect them from harmful management practices, as well as other actions that drive us closer together in solidarity.

I hope I have done this with the integrity that you expect a union steward to perform, I am always open to listen and make changes for YOU when I can. The next two years will be more important to have transparent and honest communication between you as the lifeblood of the union and myself as your rep especially with our contract negotiations next year. I hope to continue to serve you and to always improve.

Solidarity,

Mike Berryhill
