

District E-33 (Vote for ONE candidate)

Rachel Barrett

I have represented you this last term, soliciting your thoughts and presenting them to the CR meeting or the Contract Prep Committee or the 4 contract prep subcommittees I am on, or the Diversity committee. I have met many of you at my cube (the one with the cute animals in SPEEA shirts). Others of you, I have met in the daily Office hours 11-12 in the Café where I team with the other CRs to answer questions and solicit your opinions on the next contract. I recruited 4 Area Reps for our district, and arranged their training. I also pushed Engineering to provide the AEDs; 3 that you see in our building as well as the other 2 BOMARCs. I pushed several of you to take the SPEEA CPR/AED training to enhance our safety.

I do a lot more than just pepper your inbox with SPEEA events;

Joseph E. Gockowski III

Over my 32-year career, I have led many transformative and industry changing projects, including negotiating supplier contracts for airline operations. As a proud 13-year SPEEA member and CR for E-15 since November 2023, I've dedicated myself to our members by organizing and leading both lunch time and monthly AR-CR meetings in the towers. Now is the time to foster engagement and momentum to achieve an improved 2026 contract, which is why I am on 3 of 4 Negotiation Prep Committees. With your support, I would be honored to serve as your Council Representative in E-33, and would commit myself to being your voice, listening to your concerns, attending union meetings, keeping you informed, and improving our contract next year! I will advocate tirelessly for our collective future, and negotiate better long-term benefits for us all.

Your voice, our wings, united in solidarity!
